PROFESSIONAL SUMMARY

Full Stack / MERN developer with **3.5+** years of professional experience building production-grade web applications, including **2+** years leading and coordinating distributed development teams. Currently a **Full Stack Developer** at Kloud Printz. Proficient across React.js, Next.js (App Router), Node.js, TypeScript, MongoDB, PostgreSQL, Firebase and Supabase, with experience in headless commerce (Shopify), real-time systems and cloud file storage. Strong UI/UX (Figma) and Agile delivery background, skilled at turning business requirements into reliable products for global teams.

CORE SKILLS

Languages & Frameworks: JavaScript (**ES6+**), TypeScript, HTML5, CSS3, React.js, Next.js 14 (App Router, **SSR/SSG**), Node.js, Express.js, Astro, Tailwind CSS, PHP, Laravel, GraphQL, REST APIs

State, Forms & UI: Zustand, Redux, React Hook Form, Zod, Framer Motion, Three.js (**GLTFLoader**, WebGL), Lucide React, next/font

Commerce & Integrations: Shopify Headless (Storefront API, Admin API, Metafields, Line Item Properties, Shopify Functions, Checkout Extensibility, Draft Orders, Webhooks), Klaviyo, Clerk

Databases & Backend: MongoDB, PostgreSQL, Supabase (**Postgres**, Realtime), Firebase, Prisma ORM, NextAuth.js (Google OAuth, role-based access), Inngest (background jobs)

Cloud & DevOps: Vercel, Cloudflare (**R2**, **DNS**, **CDN**), presigned-URL file uploads, Firebase Hosting, Git, GitHub, GitHub Actions (**CI/CD**), monorepo setup

Monitoring & Analytics: Sentry, PostHog, Vercel Analytics, Lighthouse

Testing & QA: Jest, React Testing Library, Cypress, Manual Testing, Debugging, Performance Optimization

UI/UX & Design: Figma, Responsive Design, Mobile-First Development, WordPress

Leadership: Team Leadership (**7-10 members**), Sprint Planning, Agile/Scrum, Code Review, Mentorship, Stakeholder Management, Budgeting & Resource Allocation

PROFESSIONAL EXPERIENCE

Full Stack Developer | Kloud Printz | Mar 2026 – Present

Onsite · Full-Time

- Build high-performance web applications using Astro and Supabase, working across the full stack from database schema to UI.
- Develop secure backend services covering authentication, database queries, and API integrations.
- Craft responsive interfaces with HTML5, CSS3, Tailwind CSS, and modern JavaScript (ES6+).
- Implement real-time database features using Supabase, with attention to cross-browser and mobile compatibility.
- Collaborate directly with design and business stakeholders to translate product requirements into shipped features.
- Debug and optimize existing pages for load speed, accessibility, and SEO as part of ongoing site maintenance.

Team Lead Manager, Full Stack | PassionXGroup | Oct 2024 – Apr 2026

Remote

- Led a globally distributed team of developers building web platforms end to end.
- Architected MERN-based solutions using React, Node.js, and MongoDB.
- Rolled out CI/CD pipelines with GitHub Actions and Vercel for streamlined deployments.
- Ran code reviews, sprint planning, backlog grooming, and daily standups.
- Coached junior developers and integrated Firebase for authentication and real-time data handling.
- Designed REST and GraphQL APIs to support front-end teams working across multiple concurrent product features.
- Owned technical documentation and onboarding materials to speed ramp-up for new team members.

Front-End Developer | Modalys | Jan 2023 – Sep 2024

Remote · Contract

- Designed and implemented responsive front-end interfaces using React.js and Next.js.
- Built pixel-perfect UIs from Figma prototypes, following accessibility and responsiveness standards.
- Optimized performance using lazy loading, dynamic imports, and Lighthouse audits.
- Integrated third-party APIs, managed state with Redux, and supported QA using Cypress and Jest.
- Collaborated with backend engineers to define API contracts and ensure smooth front-end/back-end integration.
- Participated in code reviews and sprint ceremonies within an Agile/Scrum workflow.

LEADERSHIP & ENTREPRENEURIAL EXPERIENCE (CONCURRENT)

Delivery Manager | Trellions | Aug 2026 – Present

Remote · Full-Time · Concurrent leadership role

- Lead a remote team of 5-10 members handling client acquisition, bidding, and proposal work.
- Manage freelance/bidding platform profiles and positioning to support business development.
- Coordinate day-to-day team workflow, task delegation, and quality of submitted proposals.

Chief Executive Officer | GH Generation and Tech LLC | Oct 2025 – Jul 2026

Remote, United States · Concurrent leadership role

- Led a globally distributed development team, overseeing web platform projects from planning through deployment.
- Set technical direction for the company's MERN-based architecture, prioritizing performance, maintainability, and growth.
- Directed UI/UX strategy via Figma and oversaw release management using GitHub Actions and Vercel.
- Defined company processes for requirements gathering, sprint planning, and quality assurance across concurrent projects.
- Managed budgeting, resource allocation, and hiring decisions to support the company's technical roadmap.
- Acted as the primary technical point of contact for stakeholders, aligning engineering output with business goals.

PROJECTS

NYC Car Wraps — Vehicle Wrap Business Website | [nyc-carwraps.vercel.app](#) · Kloud Printz

- Built a marketing and lead-generation website for a New York vehicle wrap company, covering service pages, blog, and a quote-request flow.
- Focused on fast load times and mobile responsiveness to convert local search traffic into quote requests.

WRP (We Reject Paint) — Vehicle Customization Platform | [werejectpaint.com](#) · Kloud Printz

- Delivered a full business website for a Bronx-based vehicle customization shop covering wraps, PPF, ceramic coating, and window tint services.
- Built service pages, a work gallery, commercial/fleet section, blog, and online booking/quote flow using Astro for fast, SEO-friendly SSR/SSG pages.

All4U — IT Talent & Staffing Platform | [www.buildallforyou.com](#)

- Built a two-sided marketplace connecting companies with pre-vetted global IT talent, with dedicated flows for employers and job seekers.
- Implemented hiring, job search, and consultation booking pages with a modern animated UI and responsive, mobile-first layout.
- Delivered as a Next.js application deployed on Vercel.

GH Generation (GHG) — Remote Staffing Agency Platform | [gh-generation.vercel.app](#)

- Developed a global remote staffing and talent agency website with a component-driven front end for fast performance and easy content updates, deployed on Vercel.

Nav — Personal Social/Feed App (Launching Soon) | [nav-in.vercel.app/feed](#)

- Personal project in active development: authenticated social feed app using Clerk for auth and a real-time feed interface; preparing for public launch.

Kloud Prints — Custom Print E-Commerce Site | [kloud-prints.vercel.app](#)

- Built an e-commerce site for a custom print shop (mylar bags, apparel, stickers, labels) with a product catalog, quote-request flow, and design-upload support.
- Implemented category pages, cart functionality, and a responsive storefront deployed on Vercel.

EDUCATION

Bachelors in Software Engineering (BSSE) | Virtual University of Pakistan | 2026 – Oct 2030 (In Progress)

FSc (Pre-Engineering) | Pak Wattan | Jan 2023 – Dec 2024

Matriculation, Computer Science | Tameer-i-Wattan Public Schools & Colleges | Jan 2021 – Dec 2022

CERTIFICATIONS

- UI/UX Designer – Great Learning – Issued Dec 2025
- Full Stack Developer – The Leader College of Science & Technology – Issued Oct 2022
- Diploma of Information Technology (DIT) – The Leader College of Science & Technology – Issued 2024
